Experience

2015	<div> RE/MAX Living Cape Town</div> <p>I worked for a year at the head office of RE/MAX Cape Town as a graphic designer. I was in charge of creating all printed work for RE/MAX Cape Town, from billboards, newspaper adverts, flyers etc.</p> <p>During this time I also worked on creating an online gallery for agents to view previous adverts done.</p> <p>Each agent wanted their own signature look and feel. I had to take what they wanted for their image and merge it with the RE/MAX brand requirements. This was an exciting challenge that I faced while working there.</p>
2016	<div> Cape Signature Homes</div> <p>Cape Signature Homes was a brand identity and website which I designed and developed myself while studying.</p> <p>The clients briefing was to have a brand identity that represented signature home development in Cape Town.</p> <p>Based on this brief.... I illustrated a protea, which is indigenous to Cape Town. I then tied this to “homes” by adding lines to create a house around the protea. See website for example.</p> <p>The website was coded from scratch, no bootstrap, template or framework. It was my first website I have ever devolved and made live.</p> <p>The overall website design creates a lot of emphasis on the properties and images rather than the information.</p>
